ADRIAN JUSTIN J. SAN DIEGO

AUTOMATION & INTEGRATION DEVELOPER • WORKFLOW ENGINEERING • FULL-STACK WEB

Rizal, Philippines • (+63) 918-743-6765 • adrian002bca@gmail.com • linkedin.com/in/adrian-justin-san-diego • Portfolio: adrian-sandiego.vercel.app

PROFESSIONAL SUMMARY

BS Information Systems graduate with proven production experience in workflow automation, API engineering, and web development. Architected, upgraded, and actively maintain a fleet of **25+ automated data pipelines and scrapers** using self-hosted n8n on Hostinger, custom JavaScript Code nodes, and LLM APIs (xAI Grok) running on recurring schedules. Experienced in Cloudflare 403 mitigation, DNS incident recovery, in-memory O(1) deduplication, and automated document generation. Strong software foundation in PHP, MySQL, JavaScript, and CodeIgniter, backed by an Outstanding Capstone Award and live deployed applications on Vercel.

TECHNICAL SKILLS

Workflow Automation & ETL: n8n (Self-Hosted on Hostinger, 25+ active pipelines), Webhooks, REST APIs, JSON Data Modeling, Cron Scheduling, Make fundamentals

Programming & Scripting: JavaScript (ES6+ / Node.js in n8n), PHP, SQL (MySQL), HTML5, CSS3, PowerShell scripting, Regular Expressions (RegEx), CodeIgniter 4

AI & LLM Integrations: xAI (Grok API), Prompt Engineering, Structured JSON Schema Extraction, AI Data Normalization

Databases & Infrastructure: MySQL, MariaDB, Google Sheets Automation (REST API & batchUpdate), Advanced Excel, Hostinger, Apache, XAMPP, Backup & Restoration

Platforms & Tools: Vercel, Git, GitHub, Jira (Agile/Kanban), Lovable.dev, Kit (ConvertKit), Google Analytics 4 (GA4), WordPress, Elementor, VS Code

IT Systems & Networking: Windows Administration, Workstation Setup, LAN/Wi-Fi Setup, IP Addressing, Computer Systems Servicing (TESDA NC II)

PROFESSIONAL EXPERIENCE

Junior Automation & Technical Operations Specialist (Contract)
August 2026 – Present

EdTech & Career Accelerator Startup | Remote (WFH)

- **Automated Data Pipelines (n8n):** Engineered, upgraded, and actively maintain 25+ production automated workflows and scrapers on a self-hosted n8n instance on Hostinger running on recurring 2–3 hour cycles.
- **Scraper Engineering & Anti-Blocking:** Diagnosed and resolved live Cloudflare 403 blocks and DNS failures; migrated legacy scrapers to authenticated API endpoints with custom browser headers, payload batching, and token minimization.
- **Custom JavaScript & Deduplication:** Authored custom JavaScript Code nodes and strict word-boundary RegEx pattern filters implementing O(1) in-memory `Set()` and multi-field fingerprint deduplication with intra-batch locks, guaranteeing 0 duplicate entries across consecutive runs.
- **Stale Pipeline Recovery & Data Hygiene:** Audited and restored 5 stale ingestion pipelines (30+ days inactive), resolving broken links, 22-column Grok JSON normalization, Google Sheets API `batchUpdate` backfills across 1,300+ rows, and frontend board filter alignment.
- **Automated Document Ingestion:** Architected automated student intake pipeline in n8n featuring Google Sheets logging and dynamic branded HTML-to-PDF rendering.
- **QA & Sprint Delivery:** Executed daily end-to-end smoke tests and GA4 analytics reporting verifying data integrity from raw endpoints to central databases; closed 50+ technical tickets within an agile Jira Kanban sprint framework.

IT Systems & Support Assistant
May 2026 – August 2026

Apptrade Inc. | Taytay, Rizal, Philippines

- Co-developed and maintained locally hosted PHP/MySQL retail POS and inventory systems deployed on-site through XAMPP, alongside an online e-commerce web platform.
- Implemented core transactional modules: barcode scanning, cart and checkout workflows, automated receipt printing, dynamic discount calculation, and customer-facing displays.
- Performed relational database administration, routine MySQL backups, data restorations, and application debugging.
- Provided IT infrastructure support across office hardware, workstations, Wi-Fi/LAN connections, routers, and CCTV/DVR security systems.

IT Intern – Web & System Development
January 2026 – March 2026

Optimum Brands Inc. (OBI) | Pasig City, Philippines

- Developed an interactive browser-based Room Visualizer tool, Quotation System, and Payment-Budget System utilizing PHP, JavaScript, HTML5, CSS3, SQL, and MySQL.
- Assisted senior staff with database design, website maintenance, UI improvements, and application testing across internal business tools.

PROJECTS & LIVE PORTFOLIO

Automated Data Ingestion & AI Pipeline — *Self-Hosted n8n, xAI Grok API, JavaScript, Google Sheets*
Architected an end-to-end automated pipeline collecting public recruitment data, normalizing fields via custom JavaScript, classifying relevance via Grok API, deduplicating records, and routing sanitized data to central tables and live web boards.

QRYPT: Student Attendance & Visitor Management System — *PHP, MySQL, QR Authentication, JavaScript*
Award-winning capstone system featuring automated QR attendance logging, visitor monitoring, role-based access, and audit reports. Live Demo: qrypt.great-site.net

Apptrade E-Commerce Store & On-Site POS System — *PHP, MySQL, Bootstrap 5, XAMPP*
Co-developed an on-site retail POS deployed via XAMPP for in-store transactions, alongside a deployed e-commerce store demo with cart, checkout, and inventory tracking. Live Store Demo: sampleappweb.great-site.net

OBI Interactive Room Visualizer — *JavaScript, HTML5/CSS3, PHP*
Browser-based interior visualizer enabling clients to preview flooring options and room finishes interactively. Live on obiasia.com | Interactive Demo: obi-roomvisualizer.great-site.net

EDUCATION & CERTIFICATIONS

Bachelor of Science in Information Systems (BSIS) — Trent Information First Technical Career Institute, Taytay, Rizal — **Graduated: May 2026**

• **Computer Systems Servicing NC II** – TESDA, 2024 | • **Outstanding Capstone Award** (QRYPT System) | • **Academic Loyalty Award**
