ADRIAN JUSTIN J. SAN DIEGO

Rizal, Philippines • (+63) 918-743-6765 • adrian002bca@gmail.com • linkedin.com/in/adrian-justin-san-diego • ajsd.framer.website

PROFESSIONAL SUMMARY

BS Information Systems graduate with hands-on production experience in workflow automation, API integrations, and web application development. Demonstrated expertise building and maintaining 13+ automated data pipelines using self-hosted n8n, custom JavaScript Code nodes, and LLM APIs (xAI Grok) on recurring schedules. Strong software foundation in PHP, MySQL, JavaScript, and CodeIgniter, backed by an Outstanding Capstone Award and deployed, live-hosted portfolio applications. Experienced in agile sprint delivery and end-to-end smoke testing via Jira. Seeking a Junior Automation Developer, Workflow Specialist, or Integration role.

TECHNICAL SKILLS

Workflow Automation & ETL: n8n (Self-Hosted on Hostinger), REST APIs, Webhooks, JSON Data Modeling, Automated Cron Scheduling, Make fundamentals

Programming & Web: JavaScript (ES6+), PHP, SQL, HTML5, CSS3, Bootstrap 5, CodeIgniter 4, PowerShell scripting

AI & LLM Integrations: xAI (Grok API), Prompt Engineering, Structured JSON Extraction, AI Data Normalization

Databases & Infrastructure: MySQL, MariaDB, Google Sheets Automation, Advanced Excel, Hostinger, Apache, XAMPP, Database Backup & Restoration

Platforms & Tools: Lovable.dev, Kit (ConvertKit), Jira (Kanban), WordPress, Elementor, VS Code, Framer

IT Systems & Networking: Windows Administration, Workstation Setup, LAN/Wi-Fi Setup, IP Addressing, Computer Systems Servicing (TESDA NC II)

PROFESSIONAL EXPERIENCE

Junior Automation & Technical Operations Specialist (Contract)
August 2026 – Present

EdTech & Career Accelerator Startup | Remote (WFH)

- **Automated Data Pipelines (n8n):** Engineered, upgraded, and maintained 13+ automated data ingestion workflows on a self-hosted n8n instance on Hostinger running on recurring 2-hour cycles.
- **Custom JavaScript Logic:** Authored custom JavaScript data transformation algorithms inside n8n Code nodes for schema normalization, batch looping, and URL-hash deduplication, ensuring zero duplicate entries across runs.
- **AI & API Integration:** Structured automated HTTP payloads to the Grok API (xAI) to parse unstructured web descriptions into standardized JSON records (roles, terms, compensation, and locations), dynamically generating candidate advice.
- **Production Incident Recovery:** Diagnosed and resolved live production incidents including expired Google Sheets OAuth tokens, HTTP 406 response errors, and payload batching drops.
- **Frontend & Systems Operations:** Implemented responsive UI enhancements and country filter logic via Lovable.dev, deployed an interactive 12-question scored web quiz funnel, and engineered dynamic workshop scheduling crons in n8n.
- **QA & Sprint Delivery:** Executed end-to-end smoke testing verifying data flow from raw endpoints to central databases and live web displays; closed 30+ technical tickets within an agile Jira Kanban sprint framework.

IT Systems & Support Assistant
May 2026 – August 2026

Apptrade Inc. | Taytay, Rizal, Philippines

- Co-developed and maintained locally hosted PHP/MySQL retail POS and inventory systems deployed on-site through XAMPP, alongside an online e-commerce web platform.
- Implemented core transactional modules: barcode scanning, cart and checkout workflows, automated receipt printing, dynamic discount calculation, and customer-facing displays.
- Performed relational database administration, routine MySQL backups, data restorations, and application debugging.
- Provided IT infrastructure support across office hardware, workstations, Wi-Fi/LAN connections, routers, and CCTV/DVR security systems.

IT Intern – Web & System Development
January 2026 – March 2026

Optimum Brands Inc. (OBI) | Pasig City, Philippines

- Developed an interactive browser-based Room Visualizer tool, Quotation System, and Payment-Budget System utilizing PHP, JavaScript, HTML5, CSS3, SQL, and MySQL.
- Assisted senior staff with database design, website maintenance, UI improvements, and application testing across internal business tools.

PROJECTS & LIVE PORTFOLIO

Automated Data Ingestion & AI Pipeline — *Self-Hosted n8n, xAI Grok API, JavaScript, Google Sheets*

Architected an end-to-end automated pipeline collecting public recruitment data, normalizing fields via custom JavaScript, classifying relevance via Grok API, deduplicating records, and routing sanitized data to central tables and live web boards.

QRYPT: Student Attendance & Visitor Management System — *PHP, MySQL, QR Authentication, JavaScript*

Award-winning capstone system featuring automated QR attendance logging, visitor monitoring, role-based access, and audit reports. Live Demo: qrypt.great-site.net (User: Qrypt | Pass: password)

Apptrade E-Commerce Store & On-Site POS System — *PHP, MySQL, Bootstrap 5, XAMPP*

Co-developed an on-site retail POS deployed via XAMPP for in-store transactions, alongside a deployed e-commerce store demo with cart, checkout, and inventory tracking. Live Store Demo: sampleappweb.great-site.net (Admin: admin@apptrade.com | Pass: Password123!)

OBI Interactive Room Visualizer — *JavaScript, HTML5/CSS3, PHP*

Browser-based interior visualizer enabling clients to preview flooring options and room finishes interactively. Live Demo: room-visualizer.great-site.net

EDUCATION & CERTIFICATIONS

Bachelor of Science in Information Systems (BSIS) — Trent Information First Technical Career Institute, Taytay, Rizal — **Graduated: May 2026**

• **Computer Systems Servicing NC II** – TESDA, 2024 | • **Outstanding Capstone Award** (QRYPT System) | • **Academic Loyalty Award**
